PROJECTS

- **Skyware** made the frontend for the skyware website using **HTML, CSS, Javascript, React** and **Mui** during participating in a hackathon organized by IIC Msit , made it fully responsive and interactive and deployed it on netlify.

<https://skyware.netlify.app/>

- **Farmate** is a volunteering website that our team made during the Google Solution challenge. The techstack used is **MERN** and **Firebase** for userAuthentication. Aim of this web app is to provide volunteers to local farmers to help them according to their need and provide them financial aid so that they can buy the necessary machinery that can reduce livestock waste and help in reducing air pollution.
